

COMMUNITY ZONING MEETING

WEDNESDAY, MAY 10TH
AT 7PM
FORD PAL CENTER

Join Councilman Squilla's office, Seventh Street Community Civic Association, the Philadelphia City Planning Commission, and your neighbors at a community meeting on Wednesday, May 10th at 7pm at Ford PAL Recreation Center, 609 Snyder Avenue, to discuss rezoning in your neighborhood.

Zoning is the main tool used by planners to guide development and consists of two parts: the code and map. The code sets the rules for development by regulating what can be built as well as height, bulk and density of development. The map says what rules apply to which parcel of land in the city.
